## NAMES WERE SHIFTED BY CARELESS CHANCE

Cheese Instead of Being Carved Was the Carver

When chance takes things in charge it is almost certain to get them all mixed up. Now, if Gus Williams had carved Isaac C. Cheese there would have been some observation of the proprieties, but it was Cheese who carved Williams. Again, if Cheese, out of his proper role, had used a cheese knife, in decorating the countenance and person generally of Williams, it would have been not altogether unfitting, but again chance took a hand and Cheese took a butcher knife.

This hedge hedge of events took place at the Arizona club the other night. Williams, colored, occupies some position of authority, and Cheese, also colored, was his temporary understudy. Williams had occasion to reprimand Cheese for inattention to business and the latter retorted, it was claimed, with a pocket knife, which was taken away from him. He returned to the attack soon after, this time armed with a huge butcher knife with which he made a vertical slit in the lip of Williams, under the nose. After that he played to the body with such effect that before he was disarmed, it was necessary to put Williams to bed and he is there to this day, giving thanks that matters are no worse.

Cheese was locked up and yesterday a warrant charging him with assault with intent to murder was sworn out of Justice De Souza's court. He was arraigned and placed under \$2000 bond. As soon as justice began reading the complaint Cheese began suggesting corrections which would have altered the face of the document more materially than he had altered the face of Williams. It was all wrong, Mr. Cheese said. True, he had used a pocket knife but only after he had been knocked down several times and had been called names that no self-respecting person, white or black, would stand. The justice managed to stop the flow of amendments offered by Cheese until he had finished reading the complaint. As to the butcherknife, Cheese said he had no recollection of having wielded or seen one. The time of his examinations will depend upon the rapidity of Williams' recovery.
